

I am writing to oppose SB-184. The most important asset we have in a democracy is integrity and trust in our elections. It provides legitimacy to those in power. Connecticut has a long history of ballot stuffing and dirty election tactics. The federal charges against Dennis Bradley Jr. are just the latest blight on our state. Connecticut is not alone. Wisconsin is another state which experienced widespread fraud in the 2020 election. "In the report released March 1, Gableman wrote that his investigation uncovered instances of numerous mentally incompetent nursing home residents, non-citizens, and ineligible felons casting votes."

Mail-in balloting is a joke. Are the Democrats returning to the days of Tammany Hall? They seem to be employing the same tactics they perfected in the last century. Please vote NO on this terrible legislation.

Thank you,
Jennifer Benham
